PROFESSIONAL SUMMARY

Full Stack JavaScript Developer with hands-on experience building and deploying production-grade web applications using React.js, Next.js 14, TypeScript, and Node.js. Skilled in reusable component architecture, RESTful API integration, Redux Toolkit state management, and responsive UI development with Tailwind CSS. Completed a 6-month Software Developer Internship at NxDesignz Studio Pvt. Ltd., contributing to 3+ client-facing projects. Built an AI-powered portfolio with a real-time LLM chatbot using OpenRouter API and custom prompt engineering. Committed to writing clean, maintainable code and delivering seamless user experiences across all devices.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
Frontend	React.js, Next.js 14 (App Router), Redux Toolkit, React Hooks, Tailwind CSS, Framer Motion, Responsive Design
Backend & APIs	Node.js, Express.js, RESTful API Integration, Nodemailer, Client-Server Architecture
Databases	MySQL (CRUD Operations), MongoDB
AI & LLM	OpenRouter LLM API, Prompt Engineering, AI Chatbot Development, Streaming Responses
Tools	Git, GitHub, Vercel, VS Code, Figma, Postman

PROJECTS

AI-Powered Developer Portfolio with LLM Chatbot

Next.js 14 | TypeScript | Tailwind CSS | OpenRouter LLM API | Vercel — pradeep-portfolio-lovat-chi.vercel.app

- Built and deployed a full-stack portfolio featuring a real-time AI chatbot that answers recruiter questions using OpenRouter LLM API and a custom Next.js API route (/api/chat) for response streaming.
- Designed a structured system prompt with strict data-accuracy rules, markdown link formatting, and fallback handling for out-of-scope queries.
- Implemented a custom useChat hook with React Hooks for managing chat state and streaming responses on the frontend.
- Developed 6 fully responsive sections — Hero, About, Skills, Projects, Experience, Contact — with smooth Tailwind CSS transitions across all breakpoints.

Parents Choice — Insurance Platform Landing Page

Next.js 14 | TypeScript | Tailwind CSS | Framer Motion | Nodemailer — parentschoices.in

- Developed and deployed a live client-facing insurance platform with 8+ modular, reusable components (Navbar, Hero, InsurancePlans, ClaimProcedure, FAQ) using Next.js 14 App Router and TypeScript.
- Implemented scroll-triggered animations and section transitions using Framer Motion to enhance visual interaction.
- Integrated server-side contact form email delivery using Nodemailer, enabling direct customer communication from the landing page.
- Built fully responsive layouts across 4 breakpoints (375px, 768px, 1024px, 1280px) using mobile-first Tailwind CSS.

Creative Academy — Course Discovery Platform

Next.js | JavaScript | Tailwind CSS | Dynamic Routing | Vercel — creative-academy-sepia.vercel.app

- Built a course discovery platform using Next.js App Router with dynamic routing, reusable layout components, and client-side state management.
- Translated Figma design mockups into pixel-accurate, production-ready UI components across all device screen sizes.
- Improved page load performance using code splitting and lazy loading techniques.

Prison Management System — Full Stack Application

React.js | Node.js | Express.js | MySQL | RESTful API

- Built a full-stack CRUD application managing prisoner and staff records across 10+ data categories using React.js frontend and Node.js with Express.js backend.
- Designed a normalized MySQL database schema and RESTful APIs for seamless client-server data flow across all modules.
- Architected 15+ reusable React components, improving code maintainability and reducing development effort for future features.

Learning Management System — In Progress

Next.js 14 | TypeScript | Redux Toolkit | Tailwind CSS | Recharts

- Designed a scalable LMS using Next.js 14 App Router with modular TypeScript architecture and Redux Toolkit for global state management.
- Implemented XLSX-based bulk data upload and structured admin workflows for course scheduling, batch management, and assessments.
- Built interactive dashboards using Recharts to visualize student progress, batch performance, and course completion data.

PROFESSIONAL EXPERIENCE

Software Developer Intern

July 2025 – January 2026

NxDesignz Studio Pvt. Ltd. · Bengaluru, Karnataka · 6 Months

- Developed and deployed responsive web applications using React.js, Next.js, and Node.js, contributing to 3+ client-facing production projects.
- Built 20+ reusable, modular UI components across multiple projects, and managed application state with Redux Toolkit.
- Integrated RESTful APIs ensuring smooth and reliable client-server communication across all features.
- Collaborated using Git and GitHub workflows — feature branching, pull requests, and code reviews — within a cross-functional development team.
- Resolved cross-device responsiveness issues and deployed production builds to Vercel, ensuring stable performance across all environments.
- Translated Figma design mockups into pixel-accurate, production-ready React and Next.js components.

EDUCATION

Bachelor of Computer Applications (BCA)

2022 – 2025

SSMRV College, Bengaluru | CGPA: 8.09/10

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Web Technologies, Object-Oriented Programming, Computer Networks, Software Engineering

CERTIFICATIONS

Advanced Diploma in Data Center Architecture

Completed · 2025

Server Architecture, Virtualization, Fabric Networks, Linux Administration, Storage Architecture

Full Stack Development Program — 6 Months

In Progress · 2025–2026

NxDesignz Studio Pvt. Ltd. · JavaScript, TypeScript, Node.js, MySQL, React.js, Next.js, and Tailwind CSS

CORE STRENGTHS

- Full-stack development with React.js, Next.js 14, and Node.js
 - AI/LLM API integration and prompt engineering
 - Reusable component architecture and modular UI systems
 - RESTful API integration and backend data handling
- Responsive UI with Tailwind CSS across all device breakpoints
 - Git workflows, code reviews, and Vercel deployment
 - Framer Motion animations and scroll-triggered UI experiences
 - Performance optimization, debugging, and clean code practices

LANGUAGES

Tamil	Native
English	Professional proficiency — Speaking, Writing, Reading
Kannada	Conversational — Speaking
